Member Plan Designations

The proposed method of plan designation by each member/household will be a one time per year annual designation by completion of a form mailed around November 1, and due to the church office by December 31. This designation will indicate which of the three plans the member/household intend the denominational missions portion of their tithes (approximately 11.60% of church budget) to be designated. The annual member/household designation would be kept on file by the church's financial secretary, and gifts made to the general offering of the church would be applied in accordance with those designations.

Member designations will be considered private and confidential, known only to the church financial secretary and any committee personnel for whom such information is necessary to perform administrative functions. Statistics regarding the overall percentages of designations and financial totals related to those designations would of course be a matter of church record available to all members.

Undesignated Gifts

Undesignated gifts will be allotted to the default plan, which is Plan Option #1.
