**SPECIAL NOTE ON ELECTRONICS/PHONES**

- No electronic devices are allowed on the trip. This includes cell phones. Parents, this special note on cell phones and electronics is vital to the success of the camp. These devices have increasingly become distractions for our teenagers. We want them to be able to connect with God while at the retreat. These devices often hinder this primary purpose of our time together. We understand that cell phones have become an excellent way for parents and teenagers to connect for safety and security purposes. Our desire is not to add stress for parents being unable to connect with their teenagers during the week. Therefore, parents are free to contact Jeff if and when you wish to check in with your teenager.
- Parents - these special notes on electronics and cell phones are vital to the success of the retreat. If you have questions, please feel free to ask.
